FROM THE DEAN’S DESK: SPOTLIGHT ON ANGELA TAYLOR

Please join us in welcoming Angela Taylor to the Library. As the Library’s Administrator, she will help with budget management, administration of Library support for online learning, and special projects for the Dean. Angela’s latest position was Administrative Assistant to the Principal of Our Lady of Lourdes School in Melbourne, where her son Zachary was a student.

Prior to coming to Melbourne, Angela held several high-ranking positions in the banking industry including Marine Midland Bank, Bank of Montreal, and Mechanics Savings Bank, where she was Senior Vice President, Commercial Credit. Angela holds a BS degree in Finance from Fairfield University, Fairfield CT. Angela, her husband Jerry, and their son reside in West Melbourne.

WELCOME, ANTHONY MOWAD!

Anthony Mowad, the Evans Library’s Unix/Linux Systems Administrator and Systems Integration Specialist, joined the staff in June. His strong professional background and demonstrated expertise in systems, programming, and software engineering make him especially well-qualified to help develop seamless and user-friendly remote access to our multitude of diverse information resources.

Anthony comes to Florida Tech with experience as a software engineer at both Harris Corporation and Lockheed Martin Corporation. He has also been programmer/Web design lead for Cramer-Krasselt Regional Advertising Company.

Anthony earned his BS in Computer Science and a minor in Mathematics at Florida State University, as well as a BA in Psychology and a minor in Organizational Communication at University of Central Florida. In addition to his membership in such organizations as the Golden Key National Honor Society and Phi Kappa Phi National Honor Society, Anthony is a director and playwright active throughout Brevard County.

LIBRARY DISPLAYS – EVANS LIBRARY’S FLORIDA TECH RESEARCH SHOWCASE – COLLEGE SERIES

Continuing in the Library is the Florida Tech Research Showcase – College Series, currently highlighting the College of Science. Organized by its departments, Biological Sciences, Chemistry, Mathematical Sciences, Physics & Space Sciences, and Science & Mathematics Education, the exhibit amply demonstrates international collaborations and far-reaching scientific applications that result in higher quality of life, health, security, teaching, learning, environment, and understanding.

The pharmaceutical and environmental chemistry developments of Dr. Joshua Rokach and Dr. Virender Sharma are featured in the exhibit.

SUMMER 2010 GRADUATE RESEARCH WORKSHOP WELL-REVIEWED

The Library’s Summer 2010 graduate research workshop was held on June 4 from 1:00 – 4:45 p.m. The evaluation forms revealed that all participants would recommend the workshop to their fellow graduate students. High ratings for all three workshop modules reflected recognition and great appreciation for the excellence of instruction and faculty librarian expertise.
