DISPLAYS CONTINUE

Continuing in the Library are two first-floor displays: the Nathan M. Bisk College of Business Research Showcase and Complementarity: Growing Knowledge Together - Florida Tech and the U.S. Government. To visit these displays’ online counterparts, users can go to the Evans Library’s website and click on the About section. Found there is a link to a display archive that goes back to 2002.

Journal articles, books, conference proceedings, master’s theses, and various campus publications, written by or about Nathan M. Bisk College of Business faculty and students, are included in this ongoing lobby exhibit. Also in a case is information on Don Gabbard, whose practicum project was the development of a history of the Florida Institute of Technology libraries.
