FROM THE INTERIM DEAN’S DESK: EVANS LIBRARY
— THE PLACE
Where can you go to “fly” an airplane, read a chapter from a course text, defy gravity while researching, use a 55” tablet to collaborate on a project, learn from experts about the future of aviation, devote a quiet moment to study, appreciate some fine art, visit Mars, sit down with a reference librarian to kick start a paper, enjoy a delicious wrap & iced coffee, or check out a book? All this and more is happening IN the Evans Library during the month of September. Stop by!
